

CAREER TREK

- Introduces key, evidence-based career development concepts
- Designed specifically for elementary students
- Interactive and highly visual

CareerTrek.org

Explorer

Students learn how careers involve different activities and require different types of knowledge.

Pathfinder

Students connect how interests and personality types map to careers.

Career Trekker

Students articulate skills they are good at and learn how different careers require different skills.

Create Your Own Career

Building on their growing knowledge, students create a custom career complete with interests, skills, and drawn picture, and more.

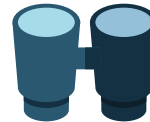

Portfolio

Student view is compact with PDF printout for easy sharing with friends, teachers, and parents.

QuickPic Assessment

Picture-based questions with results that expand horizons.

Career Library

Explore careers using the frameworks: knowledge, personality, skills.
